HOW TO FIND YOUR RING SIZE

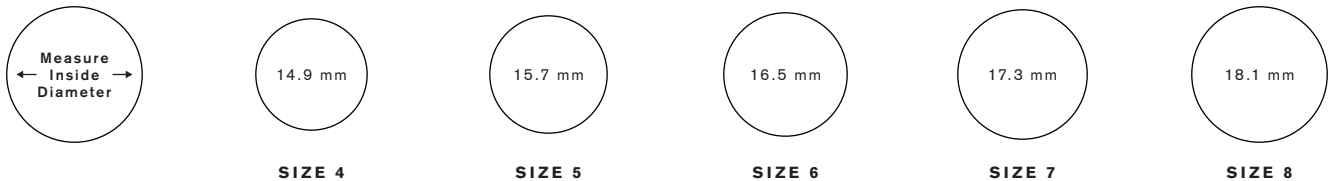

PRINT THIS GUIDE

1. To obtain accurate measurements of the ring size you should choose, please download this PDF to your computer and print at a page size of 100 percent.
2. Prior to printing, verify the page scale setting by checking your printer's dialog box. Under the page scaling option, select "none" or uncheck the box for page scaling.
3. To ensure your printed document is the correct size, compare the guide provided to a ruler or quarter. The markings of the ruler should match precisely and the US quarter should completely fill the circle shape.

MEASURE A RING YOU HAVE

1. Use a ring that fits you comfortably and has a similar band width to the one you would like to purchase. Place your ring on the circles below.
2. Match the circumference of your ring to the circle closest in size.
3. If your ring's circumference falls between two sizes, we recommend choosing the larger size.

A NOTE ABOUT BAND WIDTH

All of our rings are available in full sizes. Generally, a band 1/4" or wider will require a size larger.

WE'RE HERE TO HELP

For additional questions, please contact Shinola Customer Service by emailing customerservice@shinola.com or calling 1-844-744-6652. Shinola does not currently offer a ring sizing service, but all of our rings can be taken to third party jewelers for evaluation.
