## SHINOLA BELT SIZING GUIDE

Finding a perfect fit is important when you are buying a belt that will be a wardrobe staple for years to come. Shinola belts are measured from the inside end of the buckle (where it meets the leather) to the center hole.

You can also figure out your belt size by just adding one full size to your waist size, or two inches. So, if your pants are 32" in the waist, choose a belt that is 34".

<b>BELT SIZE</b> (INCHES)	32"	34"	36"	38"	40"	42"	44"
